

## GIVING OPPORTUNITIES at Avista Adventist Hospital

Reaching Out - Touching Hearts - Healing Lives

### Halo Sleep Sacks

Forty percent of all patients at Avista are admissions to our New Life Center, and due to these admissions, Avista Adventist Hospital helps deliver over 2,500 babies annually. It is our passion to ensure that all babies are off to the right start. Teaching all new mothers about safe sleeping is the first step for us. Avista is a champion of HALO brand sleep sacks and has the desire to ensure that all babies born in our New Life Center can leave the hospital with their own sleep sack and the education to know how to keep their baby safe while sleeping. *Fundraising goal: \$40,000 or \$150 for every 10 sleep sacks*

### Healing Arts

The Healing Arts Program integrates the arts into health care by creating an environment not just to treat illness, but to provide an inspiration for living. From music, to paintings and sculptures, the unique services offer many expressions of art to revitalize the mind, body and spirit. By expanding this significant differentiating program, we are able to provide emotional and spiritual care to our patients and their loved ones. Our generous community support directly impacts the patient experience in a very positive and powerful way every single day. *Fundraising Goal: \$30,000 or every \$600 provides one therapist per month.*

### 3D Mammography

Generous support from the community helps keep Avista Adventist Hospital on the cutting edge of technology with needed equipment. It also enables us to expand our breast care services, as well as provide early detection screenings for all women in our community. Through your generosity, we can work toward ensuring that all women within the Avista Adventist Hospital community can have access to early detection and fewer call backs through breast screenings on 3D Mammography. It is our goal to acquire a 3D Mammography machine at our Church Ranch facility, which is a hub for our women's services. *Fundraising goal: \$350,000*

### Avista Therapy Dog Program

The therapy dogs and their handlers are a welcome distraction from illness or pain by bringing laughter and encouragement to everyone they meet. It's always a joy to see one of our dogs providing comfort and bringing smiles to patients, their families and our staff when it's needed most. Donations to this program ensure scholarships, uniforms, rewards, incentives, program candidate promotion, and community outreach programs. *Fundraising Goal: \$4,000*

## Mannequin

The acquisition of a CPR mannequin will benefit all the clinical staff at Avista in maintaining continued competence to complete continuing education in life saving techniques that will directly benefit our patients. In addition to this, the mannequin can travel outside the hospital with our staff to teach life saving techniques to members of the community. *Fundraising goal: \$800*

## Inspiration in Women's Wellness Luncheon - April 18, 2017

Avista's desire is to be the destination center for women's health and our Inspiration in Women's Wellness event helps us to connect with our community while educating women about issues that impact them. The 2017 event is an educational and community event designed to support women in our community from interactions with our physicians, connection with health related services in our community, as well as our keynote speaker, Mary LoVerde, who is a work life balance expert. All donations received through the event will help us ensure that all women in our community have access to cutting edge technologies that they deserve. Mark your calendars for our 2017 Inspiration in Women's Wellness at the Westin Westminster. Sponsorships and tickets are available now.

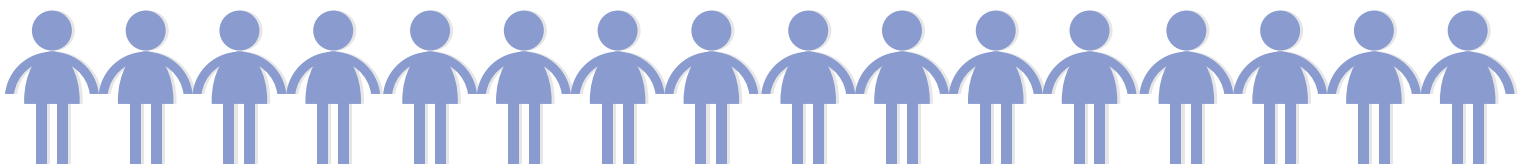

## Heart of Hearts Gala - Fall 2017

Every year the proceeds from this special event benefit cancer care programs at Avista, Castle Rock, Littleton, Parker, and Porter Adventist Hospitals. Your attendance and contribution support our excellent physicians, assist with providing cutting-edge technology and continue to advance our high-quality patient care.

## Healing Angels Program - Honor your Caregiver

When you honor a caregiver by supporting Avista Adventist Hospital, you help improve detection rates, elevate patient care through cutting-edge technology, and provide care to those who would otherwise be unable to afford it.

Your partnership will enable Avista Adventist Hospital to continue to advance the health issues that are important to you and provide the most comprehensive women's health care in the region. Together we have the power to touch lives. Donations are accepted in the honor of any caregiver, associate or department within Avista.
