By providing preventive health services and programs, Centura Health is helping to improve health and reduce the need for costly emergency treatment and acute care. Community benefits improve access, enhance health, advance medical or health knowledge, and relieve or reduce the burden of government.

**Community Benefit Report FY2019**

**Penrose-St. Francis Health Services**

Centura Health

**El Paso County**

Total Community Benefit: **$53,554,946**

Patient encounters supported with Medical Financial Assistance: **11,442**

Total Community Impact: **$125,538,362**

**Community Health Needs Selected With Our Community:**

- **Obesity**
  - Partnered with Pikes Peak Region YMCA to deliver education and information about resources focused on heart disease, diabetes, cholesterol, nutrition, and blood pressure at local YMCA's.

- **Intentional Injury**
  - Participated in Project 4A, a multi-pronged partnership focusing on suicide prevention, self-esteem, resiliency, body image, bullying, peer pressure and healthy choices in teens. This program assessed baseline data and addressed the concerns with referrals to providers for care as necessary.

- **Behavioral Health**
  - Offered four Adverse Childhood Experiences (ACE) classes to **57** people to promote behavioral health wellness and prevent addiction, depression, anxiety, and social disorders.

- **Access to Care**
  - Enrolled **1,756** people into available coverage. Delivered flu vaccines to 1000 uninsured/underinsured community members.
