

Centura Health will treat all patients in the following manner:

- Centura is dedicated to ensuring that emergency and other medically necessary care is accessible to all patients, regardless of ability to pay, ability to qualify for financial assistance, or the availability of third-party coverage.
- Financial Assistance-eligible patients will not be charged more than our amounts generally billed.

Approved Financial Assistance Adjustment Amounts in Kansas:

- To be eligible for a 100% reduction from gross charges (i.e., full write-off) less any applicable copay, the individual's adjusted household income calculation must be at or below 150% of the current Federal Poverty Guidelines.
- Individuals with adjusted household income calculated between 151%–250% of the current Federal Poverty Guidelines are eligible for assistance.

Centura Health will:

- Suspend any collection activity during the consideration of a completed financial assistance application. A note will be entered into the patient's account to suspend collection activity until the financial assistance process is complete. If the account has been placed with a collection agency, the agency will be notified to suspend collection efforts until a determination is made. This notification will be documented in the account notes.
- Notify the individual in writing generally within 60 days after receiving a completed application of the eligibility determination and the basis for the determination.
- Take any and all reasonably available measures to remove from the individual's credit report any adverse information that was previously reported to a consumer credit agency/credit bureau if the request for financial assistance is approved.
- Provide the individual with a billing statement that indicates the final amount owed.
