Centura Health is pleased to announce a new Coding Training Program! The Coding Training Program will go through specific coding including the coding of ICD-10-CM, ICD-10-PCS and CPT coding and will prepare students to be a proficient coder and prepare them for the national exam. Program participants will be hired as full-time Centura associates during the program. Upon successful completion of the program, associates will be offered a regular, full-time position.

Compensation:
- Associate’s are paid an hourly wage on a full-time basis

During the program, trainees will function in a Coder Trainee role that will have one-on-one coding instruction and training on how to translate clinical documentation from the EHR into diagnostic and procedure codes for the purposes of retrieval, analysis, reimbursement and research.

Program Details:
- The program is a full-time commitment with trainees working 40 hours/week
- Healthcare work experience is preferred
- Knowledge of basic computer skills including Microsoft Office applications
- Knowledge of current Coding and Indexing systems, anatomy and physiology, medical terminology and pharmacology
- The program duration is six months

Application & Interview Process:
- Applicants must have a High School Diploma or GED
- Applicants must have completed a Certified Coding program with proof of successful completion or current AHIMA or AAPC credential required.
- Qualified candidates will be selected for interviews with hiring managers

Employment at Centura Health:
- Upon successful completion of the program, trainees will transition into full time coding positions.
- Meets goals and expectations of the Coding Service Center Coding School
- Trainees will have access to full benefits
