

Meet Our Physicians

John Campana, MD
Dr. John Campana is board certified in Otolaryngology/Head and Neck Surgery and serves as the Medical Director of the Oncology Program at Porter Adventist Hospital.

Andrew Gaines, MD
Dr. Gaines is board certified and fellowship-trained in Otolaryngology/Head and Neck Surgery and specializes in the transoral removal of tumors involving the upper aerodigestive tract.

Andrew Nemechek, MD, FACS
Dr. Nemechek is board certified and fellowship-trained in Otolaryngology/Head and Neck Surgery. He serves as the Medical Director of Head and Neck Oncology program at Porter Adventist Hospital.

Christopher Oliver, MD
Dr. Oliver is board certified and fellowship trained in Otolaryngology/Head and Neck Surgery. Dr. Oliver specializes in the management of benign and malignant tumors using minimally invasive techniques.

Each of our surgeons was educated and trained at some of the country's premier hospitals and universities for head and neck specialties. Their research is regularly published in top medical journals and they collectively care for hundreds of patients throughout a five-state region each year.

Colorado Head and Neck Specialists

Unparalleled Experience

Colorado Head & Neck Specialists located at Porter Adventist Hospital, treats complex head and neck malignancies including advanced skin cancer, HPV-related cancers and benign and malignant tumors of the thyroid and parathyroid glands. Trained at the country's premier cancer centers for head and neck tumors, our board certified otolaryngology/head and neck surgeons offer highly-specialized treatment options such as transoral robotic surgery, laser microsurgery, skull-base surgery and microvascular reconstruction of the head and neck.

Our physicians are all board certified ENT surgeons who are skilled and experienced in the treatment of head and neck conditions that include:

- ✔ Advanced or complex skin cancer of the head, face and neck
- ✔ Head and neck cancers, including HPV-related oral cancer
- ✔ Thyroid conditions, including benign and malignant tumors of the thyroid and parathyroid
- ✔ Benign and malignant tumors of the salivary glands

Comprehensive Treatment and Care

Colorado Head and Neck Specialists is part of the

full-service cancer care program at Porter Hospital's Cancer Care Center. We work as part of a comprehensive team of medical oncologists, radiation oncologists, specially-trained nurses and patient navigators. We also offer additional support from experts such as dietitians, physical therapists and emotional support teams to ensure our patients receive complete care. With four physicians working together, you will benefit from our depth of knowledge and experience. We lead the Porter Head and Neck Cancer Tumor Board, which brings all of Porter Hospital's cancer experts together to discuss our patients' complex conditions and ways we can work together to best treat each patient.

Personalized Treatment Planning

At Colorado Head and Neck Specialists, we create a

customized, individual treatment plans for each patient we see. As a result, our physicians, nurses and staff learn about a patient's specific needs and makes sure that they have the resources they need before, during and after treatment.

As time is often of the essence with certain diagnoses, we also strive to treat patients with quickly and accurately. From the moment a patient calls, our entire staff is here to help them understand treatment options and start care as soon as possible.

Same-Day and Next-Day Appointments Available

Patients who have been diagnosed with a specific head and neck-related condition will find relief in knowing that our office can often accommodate same-day or next-day appointments. Plus, as a part of the Porter Cancer Care Center, we provide easy access to testing, treatment and support services all in one convenient location.
