

Longmont United Hospital

Longmont United Hospital

**Compassionate health and wellness
in a healing environment.**

At Longmont United Hospital we are committed to improving the health of the community we serve. We are a full-service, 201-bed, non-profit hospital located in Longmont, Colorado. We have served the needs of the Longmont and surrounding communities for more than 60 years. Longmont United Hospital is one of the first to be designated as a Planetree hospital in Colorado. This means we provide a patient-centered approach in every aspect of care.

Our specialty areas include: Women's Services, Robotic Surgery, Orthopedics, Cardiology, Oncology, Transitional Care and an Integrative Medicine program that offers alternative therapies. Our 24-hour Emergency Department is a Level III Trauma Center.

Distinctive services

Longmont United Hospital has been proudly serving the Longmont community with innovative, high-quality care for the past five decades.

At Longmont United Hospital, our staff members treat the entire patient because we understand how powerful the connection is between the body, the mind, and the spirit. As a Planetree Designated® Hospital, our staff members adhere to the highest possible standards—in fact, HealthGrades ranks Longmont United Hospital as one of the top hospitals in the country for patient experience. We are proud of our reputation as a patient-centered hospital, both in Boulder County and around the nation.

Breast Care Center

About one in eight women will be diagnosed with breast cancer. From diagnosis to treatment, our supportive medical professionals are with you every step of the way to provide guidance and education.

Cancer Care

Longmont United Hospital partners with Rocky Mountain Cancer Centers to offer patients cutting-edge, comprehensive radiation and medical oncology close to home.

Emergency Care

In life's most critical moments, you can be sure that exceptional care is standing by, ready to meet your needs, whatever comes your way.

Heart and Vascular Care

Our state-of-the-art Cardiac Catheterization (Cath) Lab assists providers with diagnosing and treating blocked arteries. If a

suddenly-blocked heart artery causes a heart attack, our Cath lab team is standing by 24 hours a day to rapidly restore blood flow.

Integrated Therapies

From acupuncture and nutrition counseling to Reiki and massage, Longmont United Hospital's Health Center for Integrated Therapies offers a wide variety of integrative therapies designed to meet your individual needs.

Orthopedics

In partnership with Front Range Orthopedics and Spine and Boulder Neurological & Spine Associates, Longmont United Hospital offers comprehensive orthopedic services including total joint replacement and spine surgery. Doctors work closely with radiology and physical therapy departments to provide seamless orthopedic care.

Women's Services

The BirthPlace at Longmont United Hospital offers a family-friendly and comfortable environment during this most joyous occasion. All of your needs—before, during and after the birth—will be handled with the highest level of care. Designated as a Center of Excellence in Minimally Invasive Gynecology (COEMIG), one of only two sites in Colorado.

Healthgrades Honors

In 2015, Longmont United Hospital received five honors from Healthgrades, the leading online resource for comprehensive information on physicians and hospitals. In addition to earning the Gastrointestinal General Surgery Excellence Award, the hospital merited honors for its GI, hip fracture treatment, treatment of pneumonia and critical care services.

Patient & Community Resources

Longmont United Hospital hosts regular classes, educational sessions and support groups on campus to support area residents on their wellness journey. Among the most visible integrated resources is the United Health & Wellness fitness and wellness center. United Health & Wellness offers exercise counseling, training, and support services in a medically oriented environment as well as a full schedule of fitness classes for the community. In addition, the center offers special programs such as Phase II Cardiac and Pulmonary Rehabilitation, metabolic testing, home safety evaluations, and balance screenings.
