Centura Health will:

- Suspend any adverse reporting to consumer credit agencies/credit bureaus.
- Suspend any collection activity during the consideration of a completed financial assistance application. A note will be entered into the patient's account to suspend collection activity until the financial assistance process is complete. If the account has been placed with a collection agency, the agency will be notified to suspend collection efforts until a determination is made. This notification will be documented in the account notes.
- Make and document the determination as to an individual's eligibility for financial assistance.
- Notify the individual in writing generally within 60 days after receiving a completed application of the eligibility determination and the basis for the determination.
- Provide the individual with a billing statement that indicates the final amount owed.
- Take all reasonably available measures to remove from the individual's credit report any adverse information that was previously reported to a consumer credit agency/credit bureau.
